📍 BTM Layout, Bengaluru, Karnataka

SUMMARY

A hardworking individual with excellent academic record desiring to apply for an entry-level software development role. As a fresher software engineer, my objective is to leverage my technical skills, problem-solving abilities, and passion for coding to contribute to the success of a dynamic and innovative software development team. I aim to gain valuable industry experience, collaborate with experienced professionals, and continuously enhance my programming skills to develop cutting-edge software solutions.

EDUCATION

B. Tech in Computer Science and Engineering
Islamic University of Science and Technology

📅 08/2019 - 09/2023   📍 Jammu and Kashmir

GPA
7.5 / 10

PROJECTS

NETFLIX GPT
📅 10/2023 - 11/2023
🔗 https://netflixgptfahad.netlify.app/

Netflix like web application with the Power of TMDB APIs to search any movie you want (GitHub Link)

- Configured **Tailwind CSS** for responsive and visually appealing designs.
- Implemented a secure user authentication system with **Firebase**.
- Integrated **The Movie Database APIs** for a powerful movie search functionality.
- Integrated **Redux for State management**, allowing for efficient user session handling.
- Integrated with The Movie Database (TMDB) API to fetch data of movies.
- Utilized **custom hooks** to fetch and update movie data in the **Redux** store.
- Added **Multi-Language support** to the app.

CRAFSY - Ecommerce
📅 02/2023 - 07/2023
🔗 https://craftsy.netlify.app/

Developed an end-to-end E-commerce Platform using React. (GitHub Link)

- Added functionalities like **Filtering Products, Sorting Products, User Authentication.**
- Used **AXIOS** for API Calls.
- Developed a shopping cart using **Context API**.
- Integrated **Payments using Brain Tree**.

FOOD ORDERING WEBSITE
📅 10/2023 - 11/2023

Food Ordering website like **Swiggy.com (GitHub Link)**

- Developed Responsive UI using **React.**
- Utilized **Parcel** Bundler for project bundling.
- Maintained **Scalable and Organized codebase.**
- Integrated **Swiggy.com APIs** seamlessly.
- Developed a shopping cart using **Redux Toolkit**.
- Conducted **comprehensive Unit and Integration testing**.
- Ensured application reliability using **Jest and React Testing Library**.
- Implemented **Dynamic rendering** of food items and details.

SKILLS

Languages

C#   JavaScript   C++   SQL

HTML   CSS   SASS

Frameworks and Libraries

REACT   REDUX TOOLKIT

BOOTSTRAP   REACT TESTING LIBRARY

JEST   TAILWIND CSS

Core

Data Structures and Algorithms   DBMS

OOPS

ACHIEVEMENTS

Founder & Co-Leader, The Coding Club

Co-founded and led The Coding Club, fostering a community for computer science activities and competitions. Successfully organized events and awareness programs, showcasing leadership and organizational skills.

CERTIFICATIONS

Complete JavaScript Course (From zero to expert)
Udemy
